

Return to Learning Plan

Fall 2020

As of August 18, 2020

DC West Community Schools' intent is to begin school on August 20th (half day) for all students, every day, all day. In order for this to occur, we will need the DC West Falcon partnership between school and home.

We stand behind our district mission and are prepared to educate our students in a safe environment.

Douglas County West Community Schools creates passionate learners by maximizing student achievement through dynamic learning experiences which inspire and provide a quality education for all students within a safe and community-supported environment.

We are working closely with our state and local health officials in preparing for reopening this fall. We have developed enhanced health and safety precautions to protect our students and staff. We have also developed an instructional plan that supports our belief that the best educational option for students is to be in our schools with our teachers. We know this has and continues to be a very difficult time and understand there will be individual situations and circumstances. We will work with families to address those situations. We will continue to collaborate with health professionals to monitor and adjust our plans moving forward.

The DC West Return to Learning Plan outlines plans we will implement in response to the COVID-19 pandemic for the 2020-21 school year. It is understood that circumstances could remain fluid up to the first day of school and may change as the year progresses. Final decisions will be dependent upon guidance and requirements from state and local officials.

DC West Belief Statements Related to the Pandemic

- Students can learn and develop through successful experiences.
- Students will be provided educational opportunities that challenge him/her to meet his/her full potential.
- The district is accountable to the community for student performance and fiscal responsibility.
- Physical and emotional safety is essential for learning.
- A positive learning and teaching environment can be created through courtesy and mutual respect for the dignity of every person.
- The educational process should prepare students to live with and affect change.
- Students, parents and teachers share the responsibility for learning.
- Public education is the responsibility of the entire community.

Attendance Level Definitions

Multiple factors including recommendations from state and local officials, the Douglas County Health Department [Risk Dial](#), and data from the [Douglas County COVID Dashboard](#), found on the Douglas County Health Department website, will be used to assist in determining the school district's attendance level of yellow, orange, or red.

DC West is planning for all three attendance level scenarios. We are striving to start the school year at the **YELLOW** level. We will have leading indicators if we have a need to move to a different attendance level. We will establish communication and have ample time for the transition to occur.

YELLOW Level: *A moderate COVID-19 spread in our community.*

All students in school, every day, all day. The district follows the traditional school-day and school-year calendar. The school day looks normal with the addition of enhanced safety precautions to keep our students and staff safe and healthy. Details of these precautions are included in this document. Bussing, lunch, and after-school programming will continue but will look different with specific safety guidelines. Numerous physical distancing guidelines and safety measures will be in place.

ORANGE Level (Blended Model): *A high COVID-19 spread in our community.*

This model allows for students to receive face-to-face instruction while reducing the number of students in classrooms and allowing for more physical distancing. Numerous physical distancing guidelines and safety measures will be in place. The district follows the traditional school-year calendar. The student population will attend school and eLearning. Specific student attendance is outlined below.

- Preschool through 5th grade students attend school with a traditional schedule Monday - Friday (regular Friday early release) and will remain with students in their homeroom classroom all day. Students will have no transitions to specials as these teachers will come to the students.
- 6th-12th grade students will receive face to face instruction at school two times a week and online live instruction at home two times a week. The same family/residence will attend school on the same day.

6th-12th Student Last Name A-L:

- M & W: Attend school
- T & Th: Online live learning and work completion at home via Zoom according to their class daily schedule
- F: Independent learning at home. Online live reteaching with individual students.

6th-12th Student Last Name M-Z

- M & W: Online live learning and work completion at home via Zoom according to their class daily schedule
- T & Th: Attend school
- F: Independent learning at home. Online live reteaching with individual students.

RED Level (eLearning Model): *A severe COVID-19 spread in our community.*

The district follows the traditional school-year calendar. Staff may or may not be required to be on campus. The virtual eLearning Model will provide direct, video instruction, and social interaction between teachers and students. Students will engage with their teachers online on a daily basis. Teachers will deliver all instruction virtually which will include real-time instruction and independent learning from home. Technology devices will be checked out to students and hotspots will be available upon request from families. The district will also establish a modified schedule for the eLearning Model school day.

Alternate Virtual Option:

The school district will work with families to provide a virtual educational option if a student is unable to physically attend school in the **YELLOW** and **ORANGE** attendance levels due to medically vulnerable conditions of themselves or immediate family members, or if they have other individual circumstances. This option may not be as robust as the **RED** (eLearning Model), but will provide educational opportunities for students in the four core areas of language arts, math, science, and social studies.

Student and Staff Attendance

- Students/staff should stay home when sick or exhibiting **two** of the following symptoms: fever, chills, aches, headache, sore throat, nausea, vomiting, diarrhea **OR at least one** of the following symptoms: new cough, shortness of breath, difficulty breathing, loss of taste and smell.
- Douglas County Health Department and DC West Community Schools recommends contacting your physician or getting tested for COVID-19 if the symptoms appear and persist.
- If the student/staff or anyone in the household has been asked to self-quarantine, please contact the school immediately.
- If anyone in the student's/staff's home has been diagnosed with COVID-19, they should contact the school, quarantine as directed, and those absences will be excused. If students are quarantined yet healthy enough to attend, they will have access to eLearning.
- The district will follow all Douglas County Health Department guidance on staff and student recommended quarantines and those will be counted as an excused absence.
- Attendance, whether attending school in person or as an eLearning student, is expected for all students enrolled in the district. Daily attendance will be taken.

Response to Positive COVID-19 Cases

The protocols for a positive COVID-19 Case have been given to DC West Community Schools from the Douglas County Health Department as written below:

When a positive COVID-19 case is confirmed in a school, that individual will be excluded and allowed to return based upon current guidance from the Douglas County Health Department at the time. Health Department epidemiologists will work with schools to consider the following questions when determining how that case will impact others in their classroom and/or school building by assessing the following:

- What is the level of community spread outside the school building?
- Was the individual with COVID-19 wearing a mask most of the time?
- Were other students or staff who were within 6 feet of the individual with COVID-19 for more than 15 minutes masked?
- Was the individual with COVID-19 part of a cohort within the building or did they interact with a large number of students and staff throughout their day?
- To what extent is the school community implementing other non-pharmaceutical interventions (hand washing, hand sanitizers, etc.)

The answers to these questions will determine:

- The number of close contacts
- If the close contacts who are not symptomatic may stay in the classroom
- The number of other students and staff who will need to be quarantined.

The school or school district will then communicate with families and staff accordingly. Communication will balance the privacy of individual students or staff and the need for information by others.

Local Public Health Recommendations for Screening, Exclusion, and Re-Admittance of Ill Students and Staff for COVID-19 in Schools

The following symptom screening criteria for ill students and staff is based on the most current research. Because people with COVID-19 have reported a wide range of symptoms – from mild symptoms to severe illness – the local health department has developed the following criteria to assist schools in identifying presumptive positive COVID-19 cases.

Students with two or more of the following: fever (measured or subjective), chills, rigors, muscle aches, headache, sore throat, nausea, vomiting, diarrhea
OR
At least one of the following: new cough, shortness of breath, difficulty breathing, new loss of taste/smell,
OR
Has at least one symptom and answers yes to: Is there someone in your household who is currently in quarantine or currently positive for COVID-19?

1. Students and staff who screen positive should be immediately isolated in the designated area and sent home as soon as possible.
2. Require the symptomatic person to wear a cloth or surgical mask while waiting, if tolerable.

Re-Admittance to School

Symptomatic staff/student who test positive:	Symptomatic staff/student not tested:	Symptomatic staff/student who test negative:
<p>Exclude for:</p> <ul style="list-style-type: none"> - At least 10 days since symptoms first appeared AND: - At least 24 hours fever free without medication AND: - Symptoms have improved 	<p>Exclude for:</p> <ul style="list-style-type: none"> - At least 10* days since symptoms first appeared AND: - At least 24 hours with no fever without fever-reducing medication AND: - Symptoms have improved <p>May return to school if a doctor establishes an alternative diagnosis and presents a doctors note.</p> <p><small>*This length of time may need to be extended for people who have severe illness or are immunocompromised. Please consult DCHD or the health care provider for further guidance on those situations</small></p>	<p>Exclude until:</p> <ul style="list-style-type: none"> - 24 hours without fever (or meets the schools requirements for readmission) AND: improved symptoms <p>There is no reason for a student or staff member to get a "negative test" to be cleared for the return to school.</p> <p>A COVID-19 positive individual does not need a repeat COVID-19 test or a health care provider's note in order to return as long as exclusion guidelines above have been followed.</p>
<p style="text-align: center;">Asymptomatic staff/student who test positive:</p> <p>Exclude for:</p> <ul style="list-style-type: none"> - 10 days from date of test AND: - If symptoms develop, refer to symptomatic positive instructions. 		

If a student or staff member tests positive for COVID-19, please call the Douglas County Health Department at: 402.444.7214
