DC West Community Schools Mission Statement

DC West Community Schools engages, prepares, and empowers all of our students for the future.

DC West Community Schools uses Instructional Technology as one way of enhancing the mission to prepare and inspire all students for life-long success by teaching the skills, knowledge, and behaviors students will need as responsible citizens in the global community. Students learn collaboration, communication, creativity, and critical thinking in a variety of ways throughout the school day. Excellence in education requires that technology is seamlessly integrated throughout the educational program. In an effort to increase access to those 21st-century skills, DC West Elementary has made it a goal to offer students access to their learning through the DC West 1:1 iPad Program. The individual use of technology is a way to empower students to maximize their full potential and to prepare them for the future.

The policies, procedures, and information within this document apply to all iPads used at DC West Elementary School. Teachers may set additional requirements for use in their classrooms.

An important component of the 1:1 iPad Program will be education about digital citizenship and appropriate online behaviors. We will review cyber-safety rules with students frequently throughout the school year, and will offer reminders and reinforcement about safe online behaviors. We also encourage parents to be involved with helping their student(s) make good choices when it comes to being online and using school-issued technology.

DC West Community Schools is proud to offer our DC West Elementary School students Apple iPad devices for use in the classroom. The 1:1 iPad Program, which provides mobile computing and wireless technology to DC West Elementary students, has been designed to enhance the delivery and individualization of instruction.
